# **DETAILED ACTION**

Acknowledgment is made of the response filed 9/8/03. Claims pending are 1-6, 8-13 and 15-37.

### Claim Rejections - 35 USC § 102

- 1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
- 2. The rejection of Claims 1-3, 8-10, 15-21, 27-35 and 37 under 35 U.S.C. 102(b) as being anticipated by Lee et al. is maintained for the reasons of the record.

# Claim Rejections - 35 USC § 103

3. The rejection of Claims 22-26 and 36 under 35 U.S.C. 103(a) as being unpatentable over Lee et al. in view of Mellul et al. is maintained for the reasons of the record.

#### Response to Arguments

4. Applicant's arguments filed 9/8/03 have been fully considered but they are not persuasive.

The Applicant argues that Lee et al. do not teach the particular polyorganosiloxanes of the instant invention. See p. 4 of the response. In response, it is noted that the vinyl-terminated polydimethylsiloxanes of Lee et al. are within the scope of the instant claims because they contain organosiloxy units (i.e. dimethylsiloxy units wherein R=methyl; b=0 and a=2) and end groups capable of forming hydrogen bonds (i.e. vinyl groups). Further, the Applicant argues that unlike Lee's polyorganosiloxanes, the polyorganosiloxanes of Claim 1 of the instant invention are not crosslinked. In response, it is noted that the instantly claimed polyorganosiloxanes are not limited to non-crosslinked polyorganosiloxanes. The instant claims

Application/Control Number: 09/848,462

Art Unit: 1616

require that the polyorganosiloxanes contain at least two organosiloxy units of the given formula and at least two side or end groups being capable of forming at least one hydrogen bond with one or more partner groups. Both crosslinked and non-crosslinked polyorganosiloxanes are within the broad scope of the instant claims. With respect to the Mellul reference, the Applicant argues that "there was no suggestion or teaching in Mellul et al., when compared to the teaching of Lee et al, leading one of ordinary skill in the art to a method of gelling or a cosmetic composition of the presently claimed invention. There was no suggestion for one of ordinary skill in the art, when considering Lee et al in view of Mellul et al, to modify the structure of silicones in order to gel a cosmetically acceptable (sic!), as presently claimed." See p. 7 of the response. In response, it is noted that Mellul et al. is a supplemental reference cited for its narrow teaching of employing solid fatty substances as well as various additives, fatty esters and alcohols in cosmetic compositions for their art-recognized purpose. As discussed previously, Lee et al. teaches the polyorganosiloxanes of the instant claims but fails to teach specific cosmetic fatty substances of Claims 22-26 and 36. However, it is conventional in the art to employ solid fatty substances of the instant invention, as well as various additives, fatty esters and alcohols in cosmetic compositions, as taught by Mellul et al. Therefore, it would have been obvious to one having ordinary skill in the art at the time the claimed invention was made to use cosmetic fatty substances of Mellul et al. for make-up compositions of Lee et al. for their art-recognized purpose and with a reasonable expectation of beneficial results such as improved skin feel and emollient properties of the compositions.

Art Unit: 1616

#### Conclusion

5. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marina Lamm whose telephone number is (703) 306-4541. The examiner can normally be reached on Monday to Friday from 9 to 5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thurman Page, can be reached at (703) 308-2927.

The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-1235.
